FIDIC has released its guide to the procurement of engineering projects, the book prospective employers, consulting engineers, contractors, lawyers and many others have been waiting for.

The Guide covers the procurement of engineering and building works for projects of all sizes and complexities. It emphasises the importance of preliminary investigation and studies before a construction or other engineering project is undertaken, and the development of a realistic project strategy for its realisation. The document provides essential guidance on the underlying concepts and philosophy of procurement, and the planning necessary to form a sound basis for the forthcoming project. The Guide then explains how the project strategy should be developed, as this will govern all subsequent stages of the process. Detailed guidance is given on each step of the tendering process for every type of engineering project, and advice on the choice of the applicable FIDIC standard contract form. The Guide covers systematically all stages of procurement, from identification of the need for a project or facility up to the receipt of tenders and award of contracts for its implementation. The Guide includes sample documents covering such matters as prequalification, instructions to tenderers and tender securities, and has useful appendices discussing, for

example, operation and maintenance aspects, preparation of ‘employer’s requirements’, performance-based procurement, privately-financed projects and contents of contractors’ proposals.

The Guide has been largely written by Christopher Wade, Chairman of FIDIC’s Contracts Committee 1999 – 2006, with contributions and assistance from a task group of experienced consulting engineering practitioners. It is purposely written in straightforward English and is illustrated with tables, diagrams and fold-out charts to be as user-friendly as possible. The intention is not only to be a ‘best practice text book’ but also to provide hands-on advice to assist public and private employers and their consultants and advisers interested in developing and implementing a project. It should also be of interest to contractors, developers, financiers, lawyers and others involved in engineering and the construction industry.

Below is an overview of the first pages of the Guide:

Appendices 188

A FIDIC Code of Ethics

2.6.6 Basic Considerations - Operation and Maintenance
2.6.10 Basic Considerations - Sustainable Development
2.7.1 Basic Considerations - Feasibility Studies Report

5.5.1 Contract Types - Preparation of the Employer's Requirements
5.5.2 Contract Types - Performance-Based Procurement (PBP)
5.6.2 Contract Types - Privately Financed Projects (PFP's) and Public -Private Partnerships (PPP's)
5.9.3 Contract Types - Purchasing, Expediting and Inspection

8.3.1 Prequalification of Tenderers: Contracts for Works - Standard Prequalification Form for Contractors

11.1.1 Obtaining Tenders: Construction Contracts - Example Letter of Invitation to Tender
11.1.2 Obtaining Tenders: Construction Contracts - Example Form of Tender Security
11.1.3 Obtaining Tenders: Construction Contracts - Example Form of Instructions to Tenderers

12.1.1 Obtaining Tenders: Plant and Design-Build Contracts - Example Letter of Invitation to Tender
12.1.2 Obtaining Tenders: Plant and Design-Build Contracts - Example Form of Tender Security
12.1.3 Obtaining Tenders: Plant and Design-Build Contracts - Example Form of Instructions to Tenderers
12.1.4 Obtaining Tenders: Plant and Design-Build Contracts - Typical Schedules
12.1.5 Obtaining Tenders: Plant and Design-Build Contracts - Typical Contents of a Contractor's Proposal

13.1.1 Obtaining Tenders: EPC/Turnkey Contracts - Example Letter of Invitation to Tender
13.1.2 Obtaining Tenders: EPC/Turnkey Contracts - Example Form of Tender Security
13.1.3 Obtaining Tenders: EPC/Turnkey Contracts - Example Form of Instructions to Tenderers

14.1.1 Obtaining Tenders: Dredging and Reclamation Works - Example Letter of Invitation to Tender
14.1.2 Obtaining Tenders: Dredging and Reclamation Works - Example Form of Tender Security
